

# Child Friendly Solutions

## Mini Magic

### Interactive Touch Screen

The Mini Magic machine offers interactive games even in very small spaces - whether in the waiting room, children's play centre or retail environment. The machine is ready to plug in and is the most space-saving stand alone machine, requiring a standing area of just 48 x 55 cm. Thanks to its special design with sloping sides, Mini Magic can be integrated into a corner.

The durable wooden casing is fully painted and the base plate has a sturdy aluminium edge. All paints used conform to EN71 Part 3 and adhere to the guidelines for children's toys and are saliva, perspiration and food safe.

#### Technical details

- ★ Age level: from 3 years old
- ★ Dimensions: Width 48 cm x Depth 55 cm x Height 100 cm
- ★ Weight: 32 kg
